## WELCOME!

Milky Way Farm is an historic dairy farm located in beautiful Chester Springs, Pennsylvania. The 103 acres has been home to the Matthews family for four generations. Our family is passionate about growing, creating and selling high quality farm fresh products and providing memorable educational agricultural experiences through our various programs. We work in harmony with the land and animals, promote community engagement and support sustainability for future generations. The Matthews family looks forward to welcoming you to Milky Way Farm so you can experience the many ways we're trying to preserve an American tradition.
